Clearing Up Ruins.

A force of men began work Monday clearing up the ruins of the barn of Charles L. Hubbard which was burned on Sunday night. Mr. Hubbard said Sunday night that he should not rebuild the barn.

Refinished Cld Furniture Admired.

In the Main streat window of the store of N. S. Gilbert & Sons two pieces of refinished old furniture have attracted admiring attention for a day or two past. By the rubbing and varnishing and expert treatment given them by Charles W. Worthington at the company's shop the grain of the wood has been brought out to perfection and the beautiful finish makes them a handsome possession for their owner, who is a resident of Laurel Fill Refinished Old Furniture Admired.

DOES YOUR HAIR SHOW YOUR AGE?

Of course white hair and gray always suggest age, but often faded, dull and brittle looks make us think even young people are old, while a natrous, heavy head of hair is naturally associated with youthfulness and forces us to credit its owner with being young. Perfectly healthy hair is always beautifying and is very easily acquired if proper care is given to the hair and scalp. In washing the hair it is not advisable to use a makeshift, but always use a preparation made for shampooing only. You can enjoy the best that is known for about three cents a shampoo by getting a package of canthrox from your druggist; dissolve a teaspoonful in a cup of hot water and your shampoo is ready. After its use the hair dries ready. After its use the hair dries ready. After its use the hair dries solved and entirely disappear. Your hair will be so fluffy that it will look much heavier than it is. Its lustre and softness will also delight you, while the stimulated scalp gains the health which insures hair growth. ally associated with youthfulness and The following clergymen, all members of the fourth degree section, were guests of honor: Rev. J. H. Fitzman-rice of this city, Rev. U. O. Bellerose of Taftville, Rev. R. P. Morrissey of Voluntswn and Rev. W. A. Keefe of Plainfield, state lecturer of the order. John L. Riley of Bostone a member of Bishop Cheverus assembly, was another guest. Bishop Cheverus assembly, was another guest.

During the serving of the banquet music was enjoyed by the banqueters through the courtesy of The Porteous & Mitchell Co., who had installed an Edison disc phonograph in the dining room. Following the banquet, a pleasant social hour was spent, with music as the chief diversion.

The Rev. Daniel Mullen assembly is one of the most active organizations in the district of Connecticut. It was named in honor of Father Mullen, a chapiain in the Civil war and a former much beloved pastor of St. Mary's parish, this city, who is held in pleasant remembrance by many of the older residents. It has a membership of about 50 and its jurisdiction covers the territory between Norwich and Put-

HYDRANTS SHOW PRESSURE

14 POUNDS BELOW RATING Tests Made on Broadway at Scene of Hubbard Fire. .

Fire Chief Howard L. Stanton made a further test on Monday of the two hydrants which gave such an insufficient water pressure at the time of the fire at the Hubbard barn on Sunday evening. These tests were made with employes of the water department and the gauges used both by the chief and by the water department showed the same result, viz., that the hydrants were 14 pounds under the pressure for which they are rated according to the water department schedule.

A. S. Hubbard, who is acting head of the water board, witnessed the tests also, as he happened to be at Mr. Hubbard's home on other business at the time.

time.

The hydrant at Broad and Cedar streets, which is scheduled to have a water pressure of 54 pounds, showed 40 pounds. The other hydrant, which is at the corner of Broad street and Broadway, which is where the steamer was working Sunday night, showed 50 pounds pressure. It is scheduled for 64 pounds.

With a short line of hose, say 100 feet, this pressure would have provided a working line of hose, but when about 600 feet of hose was ot, as at the Hubbard fire, the resulting friction cut the nozzle pressure down to a great extent.

If the same 14 pounds below normal If the same 14 pounds below normal pressure is experienced all over the city, it reveals a serious situation for the hill locations, the chief said, and it seems likely that such is the case, as he took a test at the central station and found there was the same 14 pounds' loss of pressure there.

As hydrants in some of the hill locations are only rated to have a pressure of 20 to 25 pounds, a loss of 14 pounds in this would give a stream that would hardly run out of the nozzle.

DISCUSSED SCHOOL INSURANCE Town Board Held Special Meeting Without Coming to Definite Decision.

The town school board held a special meeting Monday evening in Supt. E. J. Graham's room at the town hall at which they discussed a readjustment of the insurance upon the town school property, but without coming to any decision, and the matter was put over to another meeting.

Miss Winifred Skelly, teacher at the Greeneville school, was given a leave of absence on account of sickness. Her place will be filled by the regular substitutes.

During the month just past the po-lice found 17 store doors open at night and secured them or notified the own-

ers so that they could look after their In the same time lodgings were furclished at police Headquarters over night for 31 men, about the average number for this time of the year.

Wooden Floor in Vault A wooden floor was laid on Monday in the vault in the town hall building which is occupied for keeping the records of the water department. It was put down over the old cement floor as this had a soft surface and was a bothersome thing to keep clean. Felix Callahan completed the work about 4:30 o'clock.

Did Work on Comfortables Ladies of the Second Congregational church were at the church on Monday afternoon engaged in work upon comfortables that are to be sent to the school at Hindaman, Kentucky, where Miss Ruth Huntington is one of those in charge. The ladies met at 2 o'clock and worked through the

William H. Hull has returned to New London after a visit with Mrs. Hull's parents, Mr. and Mrs. Joseph C. Worth of Noswich. Mrs. Hull and daughter. Ann Louise, will remain a few days longer.

How to Shed a Rough, Chapped or Blotchy Skin

This is what you should do to shed a bad complexion: Spread evenly over the face, covering every inch of skin, a with layer of ordinary mercellised wax. Let this stay on ever night, washing it off next morning. Repeat dally until your complexion is as clear, soft and beautiful as a young girl's. This result is inevitable, no matter how selled or withered the complexion. The wax literally absorbs the filmy surface skin, exposing the lovely young skin beneath. The process is entirely harmless, so little of the old skin coming off at a time. Mercollised wax is obtainable at any drug store; one ounce usually suffices. It's a vertiable wonder-worker for rough, chapped, reddened, worker for rough, chapped, reddened, sallow skin.

Pure powdered saxolite is excelled or sallow skin.

Pure powdered saxolite is excelled for a wrinkled skin. An ounce of dissolved in a half pint witch hasemakes a refreshing wash-lotion. The residers the skin quite firm and smooth indeed, the very first application erase, the finer lines; the decear ones seen

indeed, the very first application crass, the finer lines; the deeper ones soon
